The extreme, ideology driven policies of the Greens threaten all aspects of our Australian way of life, our rights and freedoms. The Greens currently hold 5 seats in the Federal Senate, they now hope to increase that to 8 or more seats. If they are successful, they will hold the balance of power in the Senate – a disaster for all Australians.

In the upcoming election, use your House of Representatives vote to support the candidate or party you want in Government whether it be Liberal, Labor or National. But please use your Senate vote to help stop the Greens and protect our Australian way of life – vote Shooters and Fishers Party.
